Select and Add Multiple Users to the Group

Add One New User to the Group

The screenshot displays a 'Groups Dashboard' interface. A modal dialog titled 'Add New User' is open in the foreground, allowing for the creation of a new user. The dialog contains the following fields and options:

- Name ***: John
- Email ***: Dow
- Login ***: jdww112
- Password ***: [masked]
- Organization**: pitt
- City**: Pittsbutgh
- Country**: USA
- Teacher

At the bottom of the dialog are 'Add' and 'Cancel' buttons. The background shows a table of administrators with columns for ID, Name, and Email. The table contains 20 entries, with the first few visible as follows:

ID	Name	Email
10	Ahn, Jae

Add Multiple New Users to the Group

Add Multiple New Users To The Group

To add multiple users at once copy data from excel table or csv file and paste into the text area below, or type in new users data, that includes comma separated Name, Email, Login, Password, Organization, City, Country (Name, Email, Login and Password are required, Organization, City and Country are optional). Then click on 'Generate Table' and you will see your data transferred into the table below, where each cell is editable and surrounded with red border if the value in it is invalid. When you are satisfied with the result click on 'Add Users From Table' to add users to the group.
